## AMENDMENTS TO THE CLAIMS

- 1-3. (Canceled)
- 4. (Currently Amended) The apparatus of claim-1-An apparatus for draining a urine collection bag worn by a person comprising:

an electrically operated drain valve coupled to a drain tube of the urine collection bag;

a control device for remotely controlling the drain valve, the control device adapted to be worn by the person, the control device including a drain valve actuation control;

a housing for the control device, the housing including a clip for securing the housing to a belt or waistband and further including a simulated display window such that the housing resembles a pager; and

a battery disposed within the housing for providing electrical power to operate the drain valve:

wherein the control device is connected to the drain valve with a flexible flat wire cable.

- 5. (Canceled)
- 6. (Currently Amended) The apparatus of claim 1 4 wherein the drain valve is secured to an ankle of the person.
- 7. (Original) The apparatus of claim 6 further comprising a strap having a hook and loop closure for securing the drain valve to the ankle of the person.
- 8. (Currently Amended) The apparatus of claim-1\_4 wherein the drain valve actuation control comprises a push-button switch.

9-11. (Canceled)

12. (New) An apparatus for draining a urine collection bag worn by a person comprising:

an electrically operated drain valve coupled to a drain tube of the urine collection bag; a control device for remotely controlling the drain valve, the control device adapted to be worn by the person, the control device including a drain valve actuation control;

a housing for the control device, the housing including a clip for securing the housing to a belt or waistband and further including a simulated display window such that the housing resembles a pager; and

a battery disposed within the housing for providing electrical power to operate the drain valve;

wherein the control device is connected to the drain valve with a flexible wire cable.

- 13. (New) The apparatus of claim 12 wherein the drain valve is secured to an ankle of the person.
- 14. (New) The apparatus of claim 13 further comprising a strap having a hook and loop closure for securing the drain valve to the ankle of the person.
- 15. (New) The apparatus of claim 12 wherein the drain valve actuation control comprises a push-button switch.
